

noova

For businesses that want *to stand out.*

A creative studio with a *commercial mind.*

noova helps small businesses look their best, reach the right customers and run more smoothly.

We bring branding, websites, marketing and smart automation together under one roof, so everything you show the world, and everything that happens behind the scenes, works as one.

01

Considered design

Every detail chosen with care.

02

Strategy before aesthetics

Beautiful work with a clear purpose.

03

Honest delivery

Real capabilities, clearly explained.

Creative thinking, *backed by data.*

noova was founded by Jessica Feto, whose work spans marketing, brand design and data analytics.

That mix shapes everything we do. Ideas are designed to look beautiful, but they are also measured, refined and supported by tools that make running a business easier.

We work with owners who care about the details: clinics, salons, cafés, florists, studios and growing brands that want to be remembered for the right reasons.

04

Intelligent Systems & Automation

Less admin, fewer forgotten follow-ups, and more time for your clients.

Smarter tools that save you time *behind the scenes.*

CRM Setup & Management

All your customers in one organised place.

Business & Marketing Automation

Reminders, follow-ups and emails that send themselves.

AI Tools & Prompt Engineering

AI set up to write, create and work in your brand's style.

AI Assistants & Agents

Help with customer questions, research and everyday tasks.

Connected Tools & Integrations

Your website, forms and tools working together.

Data & Reporting Automation

Reports that update on their own.

Business Process Optimisation

Simpler, clearer ways of working.

FOR EXAMPLE

For a clinic or salon, this could mean appointment reminders, an aftercare message after each treatment, a review request a few days later, and a gentle note when it is time to rebook. All sent automatically, all in your brand's voice.

Five simple ways *to begin.*

Start with what you need most. Every package can grow with you.

Branding

Your full brand: strategy, logo, look and materials.

INCLUDES

Brand strategy · Visual identity · Brand guidelines · Core collateral

IDEAL FOR

New businesses, or brands that have outgrown their look.

Website

A website that looks good and is easy to find.

INCLUDES

Website design · Mobile design · Google Business Profile · Local SEO basics

IDEAL FOR

Businesses that are hard to find, or look dated online.

Marketing

Monthly support with content, social media, email and reports.

INCLUDES

Content plan · Social media · Newsletters · Monthly report

IDEAL FOR

Owners who want to market consistently but lack the time.

Automation

Your client list, reminders, follow-ups and AI tools.

INCLUDES

CRM setup · Automated reminders and follow-ups · Review requests · AI tools

IDEAL FOR

Businesses that lose repeat clients to forgotten follow-ups.

Bespoke

Anything else, built around what you need.

INCLUDES

Single projects · Campaigns · Events · E-commerce

IDEAL FOR

Needs that do not fit neatly into a package.

Current prices are on the enclosed price sheet.

A clear process, *no surprises.*

01

Conversation

An introductory call to understand your business, your goals and what you need now.

02

Proposal

A clear scope, timeline and price, agreed before any work begins.

03

Create

We design, build and set things up, sharing progress with you along the way.

04

Launch & support

We hand everything over, show you how it works and stay on hand afterwards.
